Who at school goes to the bed,
Who for evening gaffs dislikes the books,
Who might, but did not, think.

I want to warn the living ones
Who blindly creep on
Yet feel not the sweet influences
Which guide, and bless, and strengthen.

The sensual and the dark,
Catch the light from heaven above,
Kindle hearts, pure, noble, and immortal, and
Perhaps I may do it.

THE JOYS OF LIFE.

The joys of life are tiny things:
A glance, a loving smile,
A word in tones of kindness
From lips that know no guile.
Are oft the sweetest pleasures
We find along earth's way—
The smallest beams that brighten up
Time's heavy, dark-one day.

The cloudless weeks of happiness
We picture in our youth,
Are visions from enchanted realms—
Not sober dreams of truth;
They have no one, and oft we sight
The pearls that beam each day,
We hate we find life's treasure, rare,
Unprized, has passed away.

Then never let us scorn these gems,
But gather them with care,
And hoard them up with miser grasp
To gladden days less fair;
When time's bright sun to twilight hours
For us is sinking down;
When hope can only catch the rays
That gild a heavenly crown.

THE FLIGHT AND CAPTURE OF JEFFERSON DAVIS.

BY EDWARD A. POLLARD.

While Grant and Lee thundered before Petersburg, Jefferson Davis fled from Richmond, without a word of public explanation, with none of that benediction or encouragement which a great leader is expected to impart to his people in such a catastrophe—a cajoler with the ignominy of an obscure, mean fugitive, if not positively in possession and dignity. But after all the provisions for his flight, the signal for it was so sudden and dramatic—announced to him in the shape of Lee's dread telegram, while he sat in St. Paul's Church, with the sunshine of a calm and beautiful day pulsing through the windows—as to have in some respect surprised at least, breaking down his equanimity, and reducing him to that condition of fluster and tremulousness with which the weak man receives the news of misfortune, no matter how long he has vaguely expected it, and practised against the moment of its announcement.

He nervously prepared at his house his private baggage, assisted by Mrs. Davis, and he never ventured in the streets until, under cover of the night, he got unobserved on the train that was to convey him from Richmond. He did not forget the gold in the Treasury; that, amounting to less than forty thousand dollars, it had been proposed some days before, in Congress, to distribute as largesses to the discontented soldiers; but Mr. Davis had insisted upon reserving it for exigencies, and it was now secured in his bagage. He did forget his sword. That, a costly present from some of his admirers in England, had been sent to the Richmond Armory for some repairs; it was abandoned to the fire there. The last seen of this relic of the Southern Confederacy was a twisted and gnarled stem of steel, on private exhibition in a lager beer saloon in Richmond, garnished with a certificate that it was what remained of Jeff Davis' sword, and that the curiosity might now be purchased for two hundred dollars.—Whether the retailer of lager has yet disposed of his treasure we do not know.

Mr. Davis was accompanied at the first stage of his flight by his family, some of his personal staff, and three of his Cabinet: Gen. Breckenridge, Secretary of War; Mr. Benjamin, Secretary of State, and Mr. Reagan, Postmaster General. The party journeyed without accident or adventure to Danville, sitting mostly in moody silence as the train shrieked through the night that a few miles further was being torn by explosions through whose fitful chasms of light Lee's army marched as

APRIL SETTLEMENTS.

All persons indebted to this office for Printing, Advertising, or Subscriptions, are earnestly requested to make payment. Under the new rules of trade we are required to pay cash for labor, paper, printing materials and everything connected with our business. Hence it is impossible for us to give long credits.

We have a number of Paper and Type Bills maturing, which require cash, and we have to call on our friends to second us in the effort to give them a good newspaper by *prompt payments*. We will in a few weeks, send our bills to all indebted. Those who do not like to receive these little reminders, can forestall their appearance by calling at the office or remitting their dues without further delay. Subscribers in arrears can readily ascertain the amount due by examing the slips on their papers, which give the dates up to which subscriptions are paid.

GEORGE BERGNER, of the *Telegraph*, has been appointed Postmaster at Harrisburg.

DESPATCHES from the West report the capture of Gen. CUSTAR by the Indians, but no particulars are given.

ROBERT MARTIN DOUGLASS, a son of the late Senator Douglass, has been appointed Assistant Private Secretary to the President.

SENATOR ANTHONY, of Rhode Island, has been elected President of the U. States Senate, to act in case of absence or death of the Vice President.

AMONG the appointments sent to the Senate on Monday by the President, was that of Hon. Henry D. MOORE, to be Collector of Customs at Philadelphia.

THE President has officially announced that he will receive members of Congress from 10 to 12 A. M. daily, and general visitors from 3 to 4 P. M., except on Tuesdays and Fridays, Cabinet days.

THE New York *World* tells its readers that GRANT is hopelessly Radical, and calls upon the democratic party to array its forces against the new administration. Pretty good evidence of Gen. Grant's orthodoxy.

WE give, on our first page, an interesting narrative of the flight and capture of Jeff. Davis, from the pen of E. A. Pollard, the Rebel historian. It is severe on the great Rebel chieftain, but coming from one of his own partizans, it will command attention.

IT is stated in the *Review*, the organ of the Society of Friends in Philadelphia, that President Grant has applied to that body for lists of names of persons suitable for Indian Agents, of men who will truly represent a paternal and beneficent Government.

A CAUCUS of Republican Senators has determined to change some of the Senate officers, substituting John R. French, of North Carolina, as Sergeant-at-Arms; John M. Morris, of Connecticut, Executive Clerk; A. T. Clapp, of Buffalo, New York, Public Printer. Mr. George C. Gorham is retained in the position of Secretary.

A COMMITTEE of three delegates from the Washington City Post of the Grand Army of the Republic waited upon the President on Monday to urge the claims of crippled soldiers to official positions. The President assured them that he felt a warm interest in this class of citizens, and plainly intimated that their claims would not be overlooked.

THE new Suffrage Amendment passed the State Senate last week by a party vote—the Republican Senators voting for and the Democratic Senators against it. In the House, it was agreed that the afternoon and evening sessions of this week be devoted to debate, to enable the Democratic members to blow off and make "buncombe" speeches. It is their last opportunity to go it strong on "the nigger." We hope next week to record the fact that Pennsylvania has given her cordial endorsement to this last crowning outgrowth of the stern logic of events.

IT is said that Senator Sumner has in preparation a careful speech on our relations with England, which he will deliver at an early day. It is understood that he has taken very high ground on the subject of the Alabama claims, and will express strong dissent to the treaty made by Mr. Reverdy Johnson. He holds that England is responsible for a good deal more than the destruction of our ships, because her action with reference to Rebel privateers drove our commerce from the seas. Diplomatic circles are considerably exercised over what they have heard about the speech.

THE following is the full Cabinet of Gen. GRANT, as finally arranged. It is a strong one and will be approved by the country. All the members have accepted and entered on the discharge of their respective duties:

Secretary of State—Hamilton Fish, New York.
Secretary of the Treasury—George S. Boutwell, Massachusetts.
Secretary of War—General John A. Rawlins, Illinois.
Secretary of the Navy—Adolph E. Borie, Pennsylvania.
Secretary of the Interior—General Jacob D. Cox, Ohio.
Postmaster General—J. A. J. Cresswell, Maryland.
Attorney General—Ebenezer R. Hoar, Massachusetts.

CONGRESS seems disposed to appreciate the merits of newspaper men, both houses being officered by editors. Having Mr. Colfax, a Western editor, for President of the Senate, and Mr. Gorham, formerly connected with the California press, for its new Secretary, succeeding Mr. Forney, of the Philadelphia *Press*, with Mr. Blaine, a Maine editor, for Speaker of the House, and Mr. McPherson, a Pennsylvania editor, for its Clerk, and with any number of other journalists in prominent positions in or about either house the Senate has just finished the journalistic organization of that body by the choice of Mr. Anthony, editor, of the Providence (R. I.) *Journal*, for President *pro tempore*.

THE NEW CABINET.

The vacancy occasioned by the resignation of A. T. STEWART, as Secretary of the Treasury, in consequence of the legal difficulty in the way of his qualifying, was promptly filled by Gen. GRANT in the appointment of Hon. GEORGE S. BOUTWELL, of Massachusetts. Mr. BOUTWELL was born in Massachusetts in 1818; has been engaged in commerce, as well as practiced law; has been in political life since 1842, serving in the State Legislature till 1850; in the Massachusetts Constitutional Convention in 1853; in the Peace Congress in 1861; was Governor of his State, and the first Commissioner of Internal Revenue for six months, before March, 1863. He has served in Congress several terms, and has been distinguished for his ability and devotion to Republican principles. He is a Tariff man, and always in favor of protecting American Industry.

Mr. WASHBURNE, whose appointment as Secretary of State was understood to be complimentary and a graceful tribute by Gen. GRANT to an early and steadfast friend, has resigned to take the Mission to France. His successor in the Department is the Hon. HAMILTON FISH, of New York. Mr. FISH, is sixty years of age, having been born in New York City in 1809. After graduating from Columbia College, he was admitted to the bar in 1830. In 1837 he was elected to the Legislature. From 1843 to 1845 he occupied a seat in Congress. On the expiration of his Gubernatorial term in 1851, he was chosen United States Senator, and in 1857 he retired from public life, but since then has taken an active interest both in public affairs and in many of the benevolent and literary institutions of the day. He is a man of wealth and culture. He was formerly an old Whig, and has always opposed the Democratic party. Since the beginning of the war he has sustained the principles and measures of Republicanism, though he has not been conspicious as a Radical. His personal character for honor and integrity is very high, and though not a skilled diplomatist, he has energy and earnestness, and we believe his foreign policy will be firm and straightforward.

Gen. JOHN A. RAWLINS, of Illinois, has been appointed Secretary of War. The appointment is regarded as an excellent one. Gen. RAWLINS is a lawyer, but entered the volunteer service at the breaking out of the Rebellion. He served as Chief of Gen. GRANT's staff during the whole course of the war, being his confidential friend and counsellor. His familiarity with military matters, thus acquired, will enable him to run the War Department satisfactorily to the country.

This completes the Cabinet. It is a strong one, possessing probably more unity than the original cast, and will command the confidence of the country.

AMONG the nominations sent to the Senate is that of Gen. LONGSTREET, as Collector of the Port of New Orleans. Some objection has been made to the nomination on account of Longstreet's connection with the Rebellion, and doubt is expressed as to its confirmation by the Senate. On the other hand the leading Republican presses endorse it as a wise and generous recognition of the determination of the Government to accept *bona fide* evidence of returning loyalty, and in so far to be regarded as a timely admonition to the South that the only way to secure an atonement for the crime of Rebellion lies in the direction of a frank acknowledgment of error, and a hearty willingness to abide the logical results of the War. The New York *Tribune*, remarking on the nomination says: "Gen. Longstreet was a Rebel—a fighting Rebel—the best division commander in their service after Stonewall Jackson; yet, from the fall of the Confederacy, he has been one of the most earnest, consistent, efficient Unionists in the South, and has been scorned, tabooed, scoffed at therefor by all that is malignant and implacable in the South. His nomination for a high trust by Gen. Grant is one of the best measures of practical reconstruction yet devised, and reflects honor on all concerned."

THE Philadelphia *Press*—one of the ablest and best conducted Republican journals in the country—has donned a new dress. It is now printed on new type from the foundry of COLLINS & MCLEESTER, of Philadelphia, an enterprising firm, who turn out good materials and exhibit marked integrity and courtesy in their dealings with the craft—as we have reason to know.

The Hanover *Spectator* comes to us this week enlarged and much improved in appearance, having re-arranged its advertising columns and got rid of the unseemly *cuts* that disfigure so many newspapers. The *Spectator* is a live Republican journal, well conducted, and we congratulate the publisher on this evidence of prosperity.

THE *Berks and Schuylkill Journal* has again been enlarged and is now one of the largest papers in the State. It is one of the most welcome of our exchanges—soundly Republican, conducted with marked ability, bold, fearless and independent. Friend KNABB, the Senior editor, has become a veteran in the service, and much of the reputation and success of the *Journal* is due to his energy. We are glad to see that a live Republican journal can thrive so well in "old mother Berks." It tells well for the Republicans of that region.

LAST week we alluded to the re-election of our colleague as Clerk of the House of Representatives and the favorable notices of the Press. The Chambersburg *Repository* remarks:

During three consecutive sessions of Congress Mr. M'Pherson has been Clerk of the House, and rarely has any one in that perplexing and responsible position so thoroughly proved his fitness to fill it. In his recent election it may almost be said that he was without a competitor, so general was the desire among the members of the House that he should remain. Though still a young man, Mr. M'Pherson is as well and favorably known as almost any of our public men. In ten years of his political life he has performed more work than most public men do in a lifetime, and no one is more familiar with the political history of the country. He is now engaged in preparing a biography of Thaddeus Stevens, for which work his intimate relations with the Great Commoner, for many years, especially fit him.

HON. JAMES G. BLAINE, the new Speaker of the Forty-first Congress, is a native of Pennsylvania. He was born in Washington county, in this State, in 1830, and graduated at Washington College in 1847. Like his predecessor, SCHUYLER COLFAX, he is an Editor by profession, having removed to Maine after his education was completed, and edited the *Kennebec Journal* and *Portland Advertiser*. In 1863 he was elected to Congress to which body he has been three times successively elected. He is a very popular man and will make a good speaker.

In the United States Senate, Monday, Mar. 8,

Mr. TRUMBULL, Chairman of the Judiciary Committee, reported, with amendment, the House bill to repeal "an act regulating the tenure of civil offices." The amendment makes the bill read: "That the act passed March 2, 1867, entitled, an act regulating the tenure of certain civil offices, be and the same is hereby suspended until the next session of Congress." The House passed a bill to repeal the act, but the Senate seems disposed to retain its essential principles. Inasmuch, however, as there are numberless corrupt officials now in position, who crept into power during the reign of Johnsonism, the President is embarrassed in effecting prompt removals by the operations of the Civil Tenure Act.—It is absolutely necessary to get rid of these dishonest officials, and the object of Mr. TRUMBULL's bill is to enable the President to do so freely and unembarrassed, by a temporary suspension of the act. It will doubtless pass in this shape.

A NEW order from the War Department, issued by direction of the President, make some important changes in the Military Departments, involving corresponding changes in Commanders. Gen. Sheridan, instead of going to Louisiana, takes command of the Military Division of the Missouri. Major General Halleck is assigned to the command of the Division of the South, including Louisiana and the Fourth Military District, with headquarters at Louisville. General Thomas takes command of the Division of the Pacific. General Schofield takes command of the Department of Missouri, General O. O. Howard takes command in Louisiana. The Department of Washington is discontinued and merged in the Department of the East, and the First Military District is added to the Division of the Atlantic. The Department of the Cumberland will also be discontinued and merged in other departments yet to be designated.

THE Georgia Legislature seems to be in trouble about the Suffrage Amendment to the Constitution. Last week resolutions approving the amendment passed both houses, but were subsequently reconsidered. The Democracy having expelled the colored members, the Republicans are in a minority, take no part in the matter, and seem disposed to throw the entire responsibility of favorable or unfavorable action on the amendment on the Democratic majority. The latter don't know exactly what to do. They hate the principle involved in the amendment, but their re-construction being incomplete they are afraid of Congress, and hence hesitate whether to refuse to ratify and remain under military rule, or to ratify and re-enter the Union. Guess they will choose the latter alternative. Andy Johnson being now out of power, the Rebel element in the South has been little inducement to trifle with the General Government.

THE Secretary of War on Tuesday issued an important order providing for the consolidation of the army, as provided for by the legislation of Congress. It condenses forty-five infantry regiments into twenty-five. The cavalry and artillery remain as they are. Four colored regiments are organized into two, and four veteran reserves are put into active regiments, thus throwing out all who are unfit for service, if they desire it. Two of each of the grades of field officers are to be put upon the supernumerary list. No new enlistments will be made until the number of men is reduced to the maximum number allowed by law. This order will largely reduce army expenses.

SPEAKER BLAINE has announced the Standing Committees for the session. Of the most important committees General SCHENCK is Chairman of that on Ways and Means; Mr. DAWES, on Appropriations; Mr. PAINE, on Elections; Mr. BUTLER, on Reconstruction; Mr. DIXON, on Commerce; Mr. BINGHAM, on Judiciary. Mr. CESSNA is on the Committee on Elections, and the Committee on War Department Expenditures.

THE new Postmaster General seems disposed to make a clean sweep in his department, commencing with the highest officials. Gen. BRINKER, First Assistant, has received notice that his place is soon to be filled. His successor will be Mr. EARLE, of Maryland, the former law partner of Postmaster General CRESSWELL. It is also said that Mr. MCLELLAN, Second Assistant, has been or will be removed.

NEW POSTAGE STAMPS.—Preparations are now being made for the introduction of the series of postage stamps furnished to the Postoffice Department, according to the contract made with the National Bank Note Company of New York. The following will be the new designs:

The one cent stamp is headed with the vignette of Franklin, the first Postmaster General under the colonial system, as well as the first under the confederation preparatory to the Federal Union. On the two, three and twelve cent stamps there is an illustration of the improvements in mail transportation, from the primitive rider on horseback to the railroad train for the land service, and the steamship for the ocean service.

The remaining six stamps of the set are distinctive nationals, and, as such, form a series of their own, beginning in the six cent stamps with an accurate copy of the face of Washington, as shown in Stewart's picture at the Executive Mansion, and ending in the ninety cent stamp with the head of Lincoln, as significant of a new era of universal freedom.

Two others of this natural series, fifteen and twenty-four cents respectively, have miniature copies of the landing of Columbus and of the Declaration of Independence, in the rotunda of the Capitol. The first recalling the opening of this continent to the advancement of modern civilization, the second implying the consecration of its vast area to the projection and enforcement of the inalienable rights of man.

In the ten cent stamp the American eagle appears resting upon the American shield, and in the thirty cent stamp are comprised in one group all the national emblems of the eagle, the shield and the flag, and presenting also the national colors, red, white and blue. In a little while these worldwide travellers will soon begin their journeyings.

THE ceremonies attending the dedication of the Mexican monument on the Capitol grounds, Harrisburg, on the 26th of May, promise to be very largely attended. The Scott Legion, Baxter's Fire Zouaves, the Odd Fellows and other military and fire organizations from Philadelphia, design being present. Similar organizations from Lebanon, Lancaster, Reading, Berks, and other interior cities and towns, have signified their intention to be there.

M. GAGNARD, a French millionaire, who died recently at Rochelle, made his original fortune by selling fish bait. It was worth no more than worms, but was well advertised.

IN pegging boots by steam, twenty cases, or 240 pairs of boots, are a usual day's work. One man in Hopkinton, Mass., has pegged eighty-three cases, 1,992 boots, in two days. He once pegged forty-eight boots, twice round, in fourteen minutes; and did one boot, in a trial of speed, in thirteen seconds!

THERE are now in store in Chicago 1,427,080 bushels of wheat, against 1,155,617 bushels at the same time in 1868; 1,950,720 bushels of corn, against 2,965,254 bushels in 1868; 792,60 bushels oats, against 1,130,404 bushels in 1868; 123,400 bushels rye, against 38,223 bushels in 1868, and 147,394 bushels barley, against 195,973 bushels in 1868.

THE last Mexican statement is that the situation of Juarez has become critical. The advices just previous represented him as in far from an enviable position, and yet as the strongest party. It remains for future developments to decide whether the judgment is made from sufficient grounds or local and partisan. At any event, there is no prospects of conciliation in that country.

A SINGULAR gas explosion occured on Sunday evening last at the house of Mr. Briggs, in Warren, Mass. Mr. Briggs was filling a large gas bag from the pipe which supplied his house, and when the bag was nearly full, some of it escaped and reached a lamp that was standing on a table in the room, when the explosion came, shaking the town from one end to the other. The gas, after knocking down Mr. Briggs and the family, rushed through the windows, tearing out everything that came in its way, breaking all the furniture, smashing the stove, ripping up carpets, and knocking over the furniture in other parts of the house. It finally went through the floor into a picture frame factory below, tearing away the partition, smashing out a show, window, and starting the walls from their foundations.

THE NATURAL WEALTH OF PENNSYLVANIA.—From tables recently compiled, giving the statistics of the yield of coal, iron and oil in this State during the year 1868, the following figures are taken. The product of the three anthracite coal fields was 13,674,257 tons—a very considerable increase over the year 1867. The bituminous coal product for 1868 was at the lowest estimate, 18,000,000 tons. The product of the oil regions during the year was about 140,000,000 gallons, valued at $37,000,000 in currency. Some 100,000,000 gallons of the foregoing quantity, valued at $27,000,000 in currency, were exported from the country, the remainder, of course, being consumed at home. The product of iron for 1868 was as follows:—Pig iron of all kinds, 872,825 tons; from forges and bloomeries, 32,164 tons; rails, 259,380 tons; man ufactured iron, embracing sheet, plate, hoop, rails, &c., 965,821 tons, valued, according to the current rates, at $68,000,000. The aggregate value of the production of these articles of coal, petroleum and iron, during 1868, is $195,000,000. As this sum almost trebles the value of the annual yield of the precious metals in the United States, the vast mineral or natural wealth of the Keystone State looms up by the comparison in proportions which can justly make any Pennsylvanian proud.

FREEDOM AT THE SOUTH.—The Rev. Dr. Hatfield, of Chicago, who has been travelling for several weeks in the South writes a letter to the *Independent*, in which he speaks as follows of the state of feeling in the South:

But, in spite of the obstacles to the prosperity of the South, of which I have spoken, Northern capital and Southern enterprise would seem make that whole country blossom like the rose, but for the bitter and intolerant spirit of its white inhabitants. All are not of this character.—I was treated with the greatest courtesy by Southerners, who were Rebels during the war, and whose sympathies are now all with the Lost Cause. The shopkeepers of the South are as polite and obsequious as any of their brethern at the North. But, with the exception of the little city of Jacksonville, in Florida, I found no town or community in which a Northern man, with Northern principles, could live, respect himself, and hold pleasant social relations with the old residents. The doughface from the North, who will abuse his native State, denounce the Abolitionists, and prolongate the word "nigger" with the proper emphasis, may find this an open *sesame* to the so-called 'good society' of the South. But a loyalist, who is frank and manly, will find himself ostracised by the class of whom Solomon declares, "Though thou shouldst bray them in a mortar among wheat with a pestle, yet will not their folly depart from them."

NEWS OF NEIGHBORING COUNTIES.

CUMBERLAND.—Mrs. Elizabeth Roblom, an operative in the Mount Holly Paper Mills, was taken sick on Monday night of last week, and next morning, about 3 o'clock, she left the residence of her brother-in-law, George Wolf. After calling at the houses of several neighbors she disappeared and nothing further was seen of her until about noon when her dead body was discovered in Mountain Creek, a short distance from the new paper mill. When found the body was covered with the eruption incident to small-pox, and it is supposed that she threw herself into the water while delirious from that disease.

FRANKLIN.—On Tuesday, the 9th inst. another attempt was made to burn the residence of Capt. James C. Patton, in Mercersburg. About a quarter after ten, P. M., the Capt. and his wife were wakened by some noises in the garret, which were shortly followed by an explosion, making a dull sound. He at once proceeded to that part of the house, and found the roof and floor next to it on fire. The citizens of the town came to his assistance and soon succeeded in extinguishing the flames. The loss is fully covered by insurance. This is the second attempt that has been made to destroy this property. It is supposed the fire was caused by some explosive material being thrown into the garret window from the roof of an adjoining shop. The *Repository* says: "The incendiaries are supposed to have acted from a desire to revenge themselves on Mr. Patton because he has taken so prominent a part in having prosecuted the parties who were implicated in the robbery of Fallen's store last December. Dr. James W. Robison, a well known character from the Big Cove, Fulton county, Thomas Hoeflich and James, of Mercersburg, have been arrested and committed, charged with the commission of this crime. Dr. Robinson had a hearing before Judge Rowe on Monday last, on a writ of *habeas corpus*. After a number of witnesses were examined, his Honor determined to fix his bail at $8,000, in default of which he was sent back to jail, to await his trial at the April Term of Court. Dr. Robinson was subsequently bailed by his friends."—The stable of Lewis Eyler, Chambersburg, was set on fire on Thursday night last, but the flames were extinguished before much damage was done. A negro boy, suspected of having fired the building, was arrested and held in $100 bail for his appearance at the April Term of Court.—A son of John H. Sollenberger, whilst playing at a school house in Hamilton township, on the Keefer road, on Tuesday last, had his foot cut off below the instep, by an axe in the hands of a schoolmate.

FREDERICK.—Thomas A. Smith has been appointed Postmaster at Urbana, and J. S. L. Rhoderick at Libertytown.

WASHINGTON.—On Wednesday last a mad dog was shot by Jacob Keckler, near the residence of Emanuel Miller, on the Leitersburg Turnpike.—Mrs. Mary Rowland and Charles Carroll (colored) have been indicted for the murder of Andrew Rowland, husband of the first named. Carroll is indicted for the murder in the first degree and Mrs. Rowland for the murder in the second degree.—The dwelling of Mrs. Metzgar, in Myersville, was destroyed by fire on Saturday a week, with contents, the fire originating in the roof by sparks from the chimney; insured in the Leitersburg Company, $800 on house and $200 on furniture.

YORK.—The office of P. F. Wilt, coal dealer, York, was entered by burglars on Saturday night, the safe was broken open, and the contents scattered around the room. A small amount of money was taken.—On Sunday night a week, the dwelling house of J. V. Hoshour, Esq., at Glen Rock, was entered by burglars, and a gold watch, valuables, money, &c., amounting to $1000 carried away. The thieves entered Mr. Hoshour's chamber and also visited the chambers of several other persons sleeping in the house, without discovery.—On Thursday last, Charles Ehrman, West Manchester township, while working in a stone quarry near York borough, had his right leg broken below the knee, and otherwise injured and crushed, by a heavy rock becoming loose and falling upon him.—A boy engaged in one of the many ore banks near Hanover, named Zinn, had his leg broken, one day last week, by part of the bank caving in on him.—The *Spectator* says that at the sales in the vicinity of Hanover, stock has been selling at unusually high prices; horses have sold as high as $250; cows from $40 to $80; shotes $12, $14 and $18.—The St. Joseph's Catholic church in Hanover has been enlarged and beautified during the winter.

THE NEW BOUNTY LAW.

The following is the text of the new Bounty law passed by Congress on the 3d of the present month:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That when a soldier's discharge states that he is discharged by reason of "expiration of term of service," he shall be held to have completed the full term of his enlistment, and entitled to bounty accordingly.

Sec. 2. *And be it further enacted*, That the widow, minor children, or parents, in the order named, of any soldier who shall have died, after being honorably discharged from the military service of the United States, shall be entitled to receive the additional bounty to which such soldier would be entitled if living, under the provisions of the twelfth and thirteenth sections of an act entitled "An act making appropriations for sundry civil expenses of the Government for the year ending June thirty, eighteen hundred and sixty-seven, and for other purposes," approved July twenty-eight, eighteen hundred and sixty-six, and said provisions of said act shall be so construed.

Sec. 3. *And be it further enacted*, That all claims for the additional bounties granted in section 12 and 13 of the act of July 28, 1866, shall, after the 1st day of May next, be adjusted and settled by the accounting officers of the Treasury, under the provisions of said act; and all such claims as may, on the 1st of May, be remaining in the office of the Paymaster General unsettled, shall be transferred to the Second Auditor of the Treasury for settlement.

Sec. 4. *And be it further enacted*, That all claims for bounty under the provisions of the act cited in the foregoing section shall be void, unless presented in due form prior to the 1st day of December, 1869.

SECRETARY BOUTWELL'S FINANCIAL POLICY.—Mr. Boutwell made the following remarks on financial matters at the Republican State Convention in Massachusetts last fall:

We do not propose to tolerate, sanction, or permit an issue of demand notes payable in coin to be exchanged for the time bonds of the United States. We intend to limit, and, if necessary, to diminish gradually, the volume of paper money, until it approximates in value to the standard of coin. We intend that there shall be one currency for the bondholder, the merchant, the farmer, the pensioner and the laborer. That currency shal be of the value of gold.—When this is done the public debt will be paid, as the resources of the country may permit, and to the satisfaction of those who pay and of those who receive. When the credit of the country is restored, as it will be by the single fact of the election of General Grant, we can issue bonds payable after ten or twenty years, bearing a lower rate of interest, and thus save annually the the sum of $80,000,000 or $90,000,00. But first or all, as a means of restoring the public credit, the people must dispel by their votes the apprehension of national dishonesty in the payment of the debt. The Republican party knows no policy in finance but honesty.

A VISIT TO THE BATTLE GROUNDS OF GETTYSBURG—OPERATIONS—THE HOTEL—THE FUTURE OF GETTYSBURG.

Having some business on the Chambersburg Pike the other day, I deflected to the left at the Gate-house, and soon found myself in the little valley where bubbles "the Gettysburg Katalysine Spring."

I was surprised to find that the silence and solitude which reigned here during the winter, had been superseded by bustle and activity, and by the sounds of merry voices, the tramping of many feet, the clanking of bottles and the creaking of machinery—in other words, that the bottling of this water for the spring trade had commenced. While reconnoitering the bottling operations, my attention was several times attracted by the passage of men and boys to and from the bottling establishment, and the south western portion of the glade, and turning my eyes in that direction I saw beyond the activity which intervened, the heads of a number of men moving about as if engaged in some occupation of more than ordinary interest. Being desirous of seeing whatever might be interesting in this new, important locality, I directed my steps thither, and came across the workmen employed upon a structure which had risen as if "from the stroke of the enchanter's wand," upon this, but a few years ago, wild and unfrequented spot. I had heard so many rumors about the watering place Hotel, that I had come to disregard them, and my eyes afforded me the first authentic information of the commencement of a work in which every man, woman and child in this vicinity have a deeper interest than in any other temporal matter. The foundation walls of this building are constructed of red shale stone, but have not yet received their wooden superstructure. I was much impressed with their rustic beauty, and could not help speculating upon the effect of an entire edifice of this material, upon the plan and of the dimensions first proposed, and these speculations suggested a variety of reflections of a curious and painful nature. Education is supposed to improve the human understanding, and to better qualify individuals to perceive their true interests; and yet, with two Colleges and any number of Public Schools, this community has not been able to perceive a truth in this connection as self-evident as those on which are predicated one of the most profound sciences taught in the schools, that of Mathematics. This truth is, that it is the policy of the people of Gettysburg to invest all their resources and to employ all their energies in fitting up hotels and boarding houses for the accommodation of the visitors, who, on assurance of suitable entertainment, would throng hither from all parts of the country. Gettysburg has been almost literally a place of public instruction for nearly fifty years past.

The Colleges (located here) are interested with the balance of the community, in the speedy development of the Gettysburg watering place, and can afford and ought to subscribe to the stock of a company for the erection of a suitable edifice near the springs. The erection of a Hotel here which would make Gettysburg a place of resort for the elite among the health and pleasure seekers of the country, would speedily double if not treble the patronage of these Institutions, by inducing parents to send their children to Schools and Colleges where they might come and spend with them the greater part of the year. It would benefit not quadruple the value of the real estate belonging to them in this community; a no light or unimportant consideration, should they deem it advisable to sell any portion of their property, or change their location. The effect of the development of the spring has already greatly enhanced the prices of real estate, and this obvious and now demonstrated effect of the watering place Hotel should induce the and owners to build it by contribution, even though they did not receive in exchange stock more valuable than the money or material which they contributed. As the charge of moral blindness and fatuity which I have brought against the opposers and non-supporters of the large Hotel depends on the truth of this assertion, let us again scrutinize it in the light of facts and figures reduced to their simplest or truthtelling elements. It is estimated that a hotel, capable of accommodating 1200 guests, constructed of the stone employed on the foundations of the small invalid Hotel, can be erected for $140,000, and furnished for $60,000, making a sum total of $200,000. Let us assume that this Hotel will be patronized by at least 1,000 guests during six months during the year, and the product will be $720,000. Allowing only the usual profits of all other business on these receipts, viz: of thirty-three and one-third per cent. and the company would nett of the gross proceeds $240,000 per annum. In other words, this Hotel, properly managed, would more than pay its cost and the cost of furnishing it, the first year after it is opened. Nothing is assumed here that is at all questionable, or has not been demonstrated by other watering place Hotels. That these Hotels must pay the large profits which I have indicated, is proven by the high prices of real estate at our principal summer resorts. The site and lawn of the Congress Hall at Saratoga cost $60,000, and yet the Hotel has been one of the great financial successes in this country. Many other illustrations might be cited. Granting that between the probable and the actual of this life there intervenes a wide gap, teeming with all sorts of possibilities, and still it results, from the most cursory as well as from the most careful scrutiny of the facts of our position, that never before has there been presented such opportunities for achieving wealth, honor and social distinction as is now thrust upon the people of Gettysburg—never before such an opportunity for money making since the uncovering of the golden placers of California, which drew half the world to its shores and filled its hitherto untroden wilds, its deep gulches, its rugged mountain passes, with adventurers drawn from all the nations, tribes and tongues and kindreds of the earth. And yet with this glittering prize before their eyes, and unmistakably within their grasp, the Gettysburgians pursue the even tenor of their ways, as was their wont ere the thunders of a great battle saluted their ears and made them part and parcel of a great and momentuous historical event. Did I say the Gettysburgians? No, not all. A few men, rising superior to the paralysing influence so mysteriously brought to bear on us as a people, are doing all they can to accomplish the destiny of the community in which they reside, of which the progress of the work on the present Hotel affords evidence. God speed them in their good work. They will in time not only be appreciated by their fellow-citizens, but will receive the blessings and benedictions of the health and pleasure seekers of the United States.

HEAD QUARTERS REMOVED.—Capt. NORRIS, has removed his store to Arnold's Corner, next door to the 1st National Bank, where you will find one of the best and cheapest Stock of Clothing, Hats, Caps, Boots, and Shoes, and Gentlemen's Furnishing Goods of every discription, in the county. He is selling Winter Clothing at greately reduced prices to make room for Spring Goods. If you want a BARGAIN go to NORRIS' corner. All kinds of Men's and Boy's Clothing, Hats, Caps, Boots and Shoes as cheap as before the War. If you don't believe this, *call* and be convinced.—Don't forget the place. tf.

...ENT ADVERTISING MEDIUM, THE STAR AND SENTINEL

The Star and Sentinel.

Gettysburg, Friday, Mar. 19, 1869.

☞C. M. DUNCAN, Esq., of the State Senate, will accept our thanks for sundry documents.

INSURED.—Mr. E. D. Newman had an insurance of $1000 in the Mummasburg Company. His loss is much heavier.

☞The Franklin Zouaves will meet in Hunterstown, to-morrow, (the 20th,) for drill and parade. A second Lieutentant is to be elected.

☞The territory which now embraces York and Adams counties was purchased from the Indians in 1736, one hundred and thirty-three years ago.

FORGE.—Messrs. Baker, Feistel and Tolbert have rebuilt the Gettysburg Forge, and put it in operation again. These gentlemen are all active, energetic young men, and have our cordial wishes for success.

DEAD.—The New York *Tribune* announces the death of Col. ALBERT C. RAMSEY, which occured on the 9th instant, in that city. He was at one time a prominent lawyer in York, Pa., and was well known in this section.

A RARE CHANCE.—Any person desiring to invest from $1,000 to $5,000, on perfectly safe real estate security, with assurance of prompt payment of interest, and free from all State or local taxation, will have a rare chance of doing so by applying at once to Hon. MOSES MCCLEAN, President, or A. D. BUEHLER, Treasurer, of the Board of Trustees of Pa. College. See advertisement.

COUNTERFEITS.—The country is flooded with counterfeit currency of the smaller denominations. Ten, twenty-five and fifty cent stamps largely abound, while the counterfeit bills of the denominations of one dollar and upwards are detected every day. A large addition of $10 and $20 notes of this sort has just been added to the circulation of the country, and our readers should examine bills of these denominations, dated 1862.

ACCEPTED.—Ex-Governor MORTON, of Indiana, now of the United States Senate, has accepted the invitation of the Board of Commissioners of the Gettysburg National Cemetery to deliver the address on the first of July next, on the occasion of the dedication of the monument, which will be completed by that time.—Senator MORTON has a national reputation and will doubtless make an address worthy of the historic occasion. An original Poem will be delivered by BAYARD TAYLOR, the distinguished traveller, while Rev. HENRY WARD BEECHER will perform the duties of Chaplain.

ANOTHER FIRE.—The destiny connected with Mr. Geo. Arnold's mill property on the turnpike, one mile south of Abbottstown, in this county, was also destroyed by fire during the high wind on Saturday the 6th. The fire is supposed to have originated from a stove pipe. The house was a two-story brick, and insured in the Dover Company for $1,000. The occupant, Mr. Jacob A. Staley, lost a part of his furniture, saving the balance only by the most active efforts. It is Mr. Arnold's intention to rebuild immediately. Messrs. Stallsmith & Son are already at work upon the job.—*Compiler.*

SALES.—Levi Mumper has sold his dwelling, two-story brick on East Middle street, to Hugh McIlheny, of Staban township, for $2250.

Joseph Barker has purchased Isaac Staub's new house, in Littlestown, at $3,000.

Samuel Foulk has sold his farm, in Cumberland township, to Capt. John Horner, 184 acres, for $5,000. Mr. Foulk has purchased of Charles Overdeer, in Mountjoy township, 44 acres, for $2,000 cash.

John Culp has bought from S. R. Tipton the frame building on Carlisle street, adjoining the Depot, for $325.

MAILING PRINTED MATTER.—The attention of the public is directed, through the *Postal Record*, to the following rule of the Postoffice Department, which refers to printed matter on any kind which is not so done up for mailing that it can be thoroughly examined at the postoffice where it is first deposited:

"Postmasters will charge and collect postage at the rate of three cents for each half ounce of any newspaper or periodical so marked or written upon as to give other information than that contained in the print. The same charge will be made when it is so enclosed that it cannot be examined without destroying the wrapper. The same applies to any printed matter which may be sent at less than letter postage."

It is not sufficient to clip a corner of the envelope as is often done. Nothing but printed matter and seeds can pass through the mails at reduced rates. Clothing of all kinds, dry-goods, &c., must be rated with letter postage—3 cents for each half ounce.

CHAPLAIN.—The numerous friends of Rev. J. G. BUTLER, D. D., Pastor of the Lutheran Church at Washington, D. C., will be gratified to learn that he has been elected Chaplain of the House of Representatives of the 41st Congress. Dr. Butler is well known in Gettysburg, having having prosecuted his theological studies in this place. He is a Trustee of the College and Director of the Seminary, and an active friend of both. During the trying scenes of the War for the suppression of the Rebellion, his was one of the few pulpits in the National Capitol that dared to give thoroughly loyal utterances. While not neglecting his pastoral charge, he was active in the various hospitals around Washington, ministering to the wounded and dying soldiers. The career of Dr. Butler in the Ministry has been marked with great success, and the distinguished compliment which he has just received from the Representatives of the people was merited alike by his exemplary Christian character and his acknowledged ability as a pulpit orator.

BOLD BURGLARY.—On Monday night last the office of Adams' Express in this place was broken open by burglars. The villains seem to have gone to work cooly. A pane of glass in the rear door was taken out, the pieces of glass being carefully put into a bucket. Through this opening one of the parties seems to have entered, and then removed the bolts of the door, and unscrewed the hasp of the lock, thus getting open the door. With the aid of a crow bar, pinch bar, sledge, and drills, the safe was broken open—these tools all being left in the office.—They were recognized next morning by Mr. PETER BAUSLER as his property, having been taken from his shop near the freight depot. Nearly all the express packages in the office were broken open, and the contents scattered over the floor. The burglars got but little, if anything, of value for their trouble. It is supposed that they were after money. As no money packages are permitted to remain in the office over night, they of course found none. They seem then to have gone to work very deliberately on the packages, most of them being articles that had accumulated during the last year or two, as refused or uncalled for packages. So far as is known, nothing of value was obtained, it being very evident that the parties were after money, not goods.—There must have been two or more at work and using lights, as the curtain was found drawn over the sash of the front door, and a screen put over one of the windows. The general impression is that the parties engaged in the burglary are strangers, who expected to find money in the safe.

The Express Office was entered by burglars about three years ago, the safe being then removed and carried into a secluded lane, and broken open; nothing, however, of value being then obtained.

SCHOOL MATTERS.—We are indebted to Senator DUNCAN for a copy of the Common School Report for 1868, containing the annual reports of County Superintendents, statistical tables, &c. Some weeks ago we gave same data taken from the preliminary report. From the volume now before us we extract the following figures in regard to Adams county:

No. of Schools in the county 157. Average number of months taught 4,79; Gettysburg reporting 8½ months; Huntington and Straban 6, Freedom 5½; Berwick Borough, Conowago, Hamilton, Hampton, Highland, Latimore, Liberty, Menallen, and Oxford 5; Mountjoy 4½, and the remaining districts 4 months.

No. of Male Teachers 96, with an average salary of $29.74 per month; Female Teachers 62, with average salary of $28.-10; average age of teachers 24; number holding professional certificates 22.

No. of Male Scholars 3,717, Female 3,-035; average number attending school 4,-628; average cost of tuition per month for each pupil 89 cents.

Amount of tax levied for School purposes $24,841.01, for Building $10,847.45, Occupation Tax $5,286; total tax, $40,474.46.

No. of School Houses 146, of which 39 are frame, 51 brick, 32 stone, and 24 log.—Number reported unfit for use 37; without privies 68; not well ventilated 41. Number with suitable furniture 60; insufficient 26; injurious furniture 28. Number well supplied with apparatus 39; wholly without apparatus 37.

No. of Schools 157; graded 14; well classified 140. Number in which text books are uniform 137. The Bible is read in 80 schools.

Mr. SHEELY'S Report is interesting but two lengthy for re-publication. He says eight new school houses have been erected in the county during the year—three in Menallen, two of them brick costing $900 each, and the other in Bendersville, two-story brick, with two rooms on each floor; two in Butler, brick, 30 by 32 feet, costing $900 each; one in Huntington, frame; and two in Tyrone, costing each $650. Mr. SHEELY gives a very unfavorable account of the latter two buildings, which, he says, were put up on "the penny wise and pound foolish" policy, of poor materials, with insufficient light and ventilation, badly furnished, and with "exterior surroundings in keeping with the internal arrangements." On the subject of school terms and wages of teachers, Mr. SHEELY remarks:

The directors of a number of districts lengthened the school term, and promise to increase still more next year. Public opinion is also becoming favorable to longer terms. I feel certain that in a few years the average terms will be six months.

It affords me pleasure to report that the wages of teachers have been raised about eight per cent. during the year, and that altogether in the rural districts. This is not much, to be sure, but it is a move in the right direction.

It is becoming apparent to employers that teachers cannot afford to teach at old prices, while all other kinds of labor, as well as the cost of living, are more than twice as great as before the war.

It is becoming evident that, to retain our best and most successful teachers, we must pay them at least approximately what their services would command elsewhere. It is always a source of pain to me to see good teachers quit the profession or leave the county, merely because they can do better otherwise and elsewhere. We need the services of all the good teachers we have, and cannot afford to lose any.

NEW WINDSOR ROBBERY.—The detectives in New York are quarreling over the reward for the arrest of the New Windsor Bank Robbery. It seems the officers of the Bank telegraphed to New York informing of the robbery and offering a large reward for the recovery of the stolen bonds. The N. York *Tribune* gives the following account of the arrest of the thieves:

Of course all the detectives were on the *qui vive*, and search was made for the thieves and the plunder. Nothing was learned of the robbers until about the three weeks ago, when Captain John S. Young, commanding the detective force of this city, received information through a private source that two men, who had a short time before hired a room in the vicinity of Exchange place and Broad street, were offering United States bonds at private sale at a low price below their market value. There could be no question but that the bonds had been obtained in some dishonest manner. How to get at the bonds, however, was the question.—The man who was endeavoring to sell them was only intimated with one or two at a time, and should he be taken into custody, as a matter of course his confederates would make off with the remainder. Finally, Captain Young hit upon the following plan: He hired an office in the vicinity of the one occupied by the thieves, put in furniture, and in the desk a quantity of counterfeit money. A trustworthy man was placed in charge, and negotiations were commenced. So well conducted were they that, in a comparatively short space of time, the bargain was concluded, and on a certain day the bonds were to be delivered to the man (whose name is withheld as he is not a member of the detective force). At the hour named, Captain Young, who, in the meantime, had told Detective James Irving that it was more than probable that he might need his services, accompanied by that officer, proceeded down town to the locality named. On the way down Isaac Edsall, an acquaintance of Captain Young who has been on many occasions employed by the latter, was met, and invited to accompany them, which he consented to do. The thieves were completely surprised, Detective Irving leaping through a window and seizing the arm of one of the men, who had drawn a pistol. The door was at the same moment dashed in by Captain Young and Edsall, and after a brief struggle, the men were secured. The plan had succeeded to perfection. In the possession of the men were found $99,500 worth of negotiable bonds. The thieves were taken to Police Headquarters, locked up, and in a day or two afterward sent on to Carroll county, the bonds were restored to the bank officers, and as a reward Captain Young received the sum of $10,000. A portion of this was given by Captain Young to persons who had aided him in working up the case.

It seems that Young offered detective Irving $500, which the latter declined, claiming a larger share of the spoils.—Young refusing to advance, Irving complained to the Police Commissioners, who required Young to fork over. He declines to do so, and has tendered his resignation to the Police Commissioners.

SUICIDE.—The Hanover papers announce the death, by suicide, of Mr. H. W. KOHLER, son of Jesse Kohler, of that place, aged 24 years. He was a young man of most unexceptionable character, correct department, and highly esteemed by friends and acquaintances. He was missed from his father's residence on Friday afternoon last, when he was last seen going up stairs. Nothing, however, was thought of it, as Mr. K. has been engaged in the Sewing Machine Agency and had frequent occasions to visit the country in connection therewith. His continued absence over Saturday, without known cause, excited some uneasiness. On examining his room on Sunday morning, it was found that he had not taken with him the clothes he usually wore when leaving home, and suspicion was then aroused that something unusual had happened to him. A search was instituted, and he was found in the garret of his father's hotel, hanging by a rope, and of course dead. There being no known cause for the deed, it is supposed that he committed suicide in a fit of temporary insanity, occasioned probably by depression of spirits growing out of his business—he having on several occasions complained of want of anticipated success in disposing of machines. His body was interred in Mount Olivet Cemetery on Monday, accompanied by a large concourse of neighbors and relatives.

A WORD TO THE WISE.—Persons going to Housekeeping this spring would do well to call at Col. C. H. BUEHLER'S extensive Ware-room, near the Passenger depot, on Carlisle street, who has on hand a very large assortment of Stoves of the best manufacture, Cooking, Parlor, Office, and Chamber Stoves, by wood or coal; also Hollow Ware, Tin Ware, Japan Ware, Britannia Ware, Bird Cages, and a general assortment of house furnishing goods, necessary in house keeping, and at very low prices.

RAILROAD MATTERS.—The York *True Advocate*, referring to the completion of the Columbia Bridge, announces that the Pennsylvania Railroad Company now control the York and Wrightsville road, and that in future the delay incident to changes at Wrightsville and Columbia will be avoided. The *Advocate* further remarks:—"The country west of the Susquehanna river, on both sides of the State line between Pennsylvania and Maryland, is picturesque, healthy, populous, productive, opulent; but the absence of a locomotive bridge across the Susquehanna at Columbia has hitherto had the effect of keeping it in comparative isolation, from the country east of the Susquehanna. This isolation, now happily terminated, will doubtless be followed by new links of road in sundry inviting places, *including one from York to Oxford*, whenever the people of York shall resolve on its construction with their own abundant means. If canvassed properly York would unhesitatingly subscribe for a sufficient number of shares to assure the construction of a road direct to Oxford, from which she would derive both consequence and trade, neither in small measure. York only needs a little of that vital potent ambition which may be defined as *public spirit*, to enlarge the circumference of its influence, multiply the number of its inhabitants, and at the same time increase the channels and swell the currents of business."

LECTURE BY DR. WILLITS.—Rev. Dr. WILLITS, of Philadelphia, will deliver the next Lecture in Agricultural Hall, on Monday evening next, on "*The Secret of Happiness.*" The Societies have been unfortunate in the choice of several of the Lectures this season, thereby unfavorably influencing the attendance at the last ones. There can be no mistake in the one announced for Monday evening. Dr. WILLITS stands before the country as one of its fir t-class men, with a conceded reputation for eloquence both in the pulpit and on the platform. We have no doubt the Lecture on Monday night will be a treat, and we advise all who can to go and hear him. In view of the fact there will be services in several of the churches that evening, the Lecture will not begin until 8 o'clock.—Tickets 35 cents.

INSURANCE PAID.—Our readers will recollect that a few weeks ago Mr. CHARLES H. BUHRMAN, of Liberty township, had his Store building and contents destroyed by fire. He had a partial insurance in the Adams County Mutual Fire Insurance Company. Yesterday, Mr. Buhrman met the Executive Committee, and adjusted the liability of the Company at $2,100. Mr. Buhrman received an order on the Company for that amount, which was promptly cashed by Dr. Fahnestock, the Treasurer. Mr. Buhrman's loss is probably $1,000 additional, not covered by insurance.

PUZZLES AND PROBLEMS.

There are two pillars in a straight line, perpendicular to the plane of the horizon, whose distance asunder is 180 feet. One is 60, the other 40 feet high. In what part of the line of distance must a ladder be fixed so as to reach the top of each pillar without moving it at the bottom? Also what the length of the ladder?

WALL PAPER.—Mr. Jeremiah Culp, of this place, has just received from the city a very fine assortment of Wall Paper, including gilt, bronze, satin and common paper and borders, which he offers at very reasonable prices. The public would do well to call at his establishment on York street. The season is coming on when housekeepers usually fit up. Mr. Culp as a Paper-hanger, has no superior; He is prepared to fill all orders promptly and will put paper on the wall at reasonable rates. We understand he guarantees all his work. ‡t

30—E. P. Pittinger, Cashtown.

☞Next Thursday, March the 25th, will find Philadelphia in almost as much of a "flutter" as March 4 found Washington in. For much as all the people were interested in the inauguration of the new President, they are more interested in the new clothes that are to cover and adorn them for the coming season. Next Thursday is the "Grand Spring Opening" at the great Oak Hall Clothing House, Sixth and Market Sts., Philadelphia. The cards of invitation are out and every body is intending to look in upon the great sight which Wanamaker & Brown have been preparing for the people. "Reserved seats" will be provided for their friends from the country, and all the subscribers of this paper are invited to be on hand. ‡t

GREAT SURPRISE.—We were astonished the other day in passing Arnold's old corner. NORRIS has changed his base to this corner, and is surprising every body that visits him by his large and cheap Stock of Clothing, Hats, Caps, Boots, Shoes, &c. &c. Give him a call. tf.

SWOPE.—On the 8th inst., at the residence of Benjaman Landis, in Mountpleasant township, of pneumonia, Minnie May Swope, only remaining daughter of Morgan and Lucinda Swope, aged 3 years 9 months and 22 days.

"God gave and God has taken away,
The child that was his own;
A child perhaps too much beloved,
And too much doted on.

This lovely bud, so young and fair,
Called hence by early doom;
Just came to show how sweet a flower
In Paradise could bloom."

Should we then grieve, our Minnie dear!
To know how you are blest;
Could we then wish that you were here!
From your sacred place of rest.

Our tears we wipe and gently pierced to know
That you should have so soon;
But our wounds will soon be healed
When we both beyond the tomb,
Shall be reunited angels, soldiers of your
Saviour Prince!
And there in heaven meet forever.

A FRIEND.

NEW COOKING STOVE.—The attention of Housekeepers is invited to the EXCELSIOR PENN COOK STOVE, which has recently been brought into the market, and bids fair to throw all other Stoves into the shade. This Stove *took the first premium* at the State Fair held in Harrisburg last fall. Among its peculiar merits are the large Oven and Flues, and general simplicity, not being encumbered with unnecessary appendages, which in many stoves only enhance the cost without being of practical use. For beauty of design, quality of material, and general excellence, it cannot be excelled. The price is lower than any other first-class Cook Stove in market, and yet is warranted to cook and bake equal to the best. The Excelsior Penn Cook can be seen at the Wareroom of Col. C. H. BUEHLER, on Carlisle street, Gettysburg, who is the Agent for this place. Call and see it. tf

LUMBER.—The attention of Carpenters and Builders is invited to the extensive assortment of Lumber of all kinds to be found at the Lumber Yard of Col. C. H. On Watering Horses.—Horses should never be kept so long without water that they will drink largely, when they get it. Give it to them often, and they will never injure themselves with it. Nothing is more common than to hitch a team to the plough, and make them work half a day without a drink. What man would submit to such treatment? If the plough is started at seven in the morning, water should be given again before ten; and again in the afternoon by four o'clock. Even if half an hour is thus consumed, more work will be done in a day. The objection that horses on the road should be loaded with water, is not valid. A horse weighing 1,200 will not be much encumbered additionally by 20 pounds of water, while the distention will give him additional strength. Every farmer knows that, when he himself undertakes to lift a large log or heavy stone, he can do more by inhaling himself with air, and not unfrequently he loses a button or two from his pantaloons in the operation. Some degree of inflation by water will add to a horse's strength in a similar manner, in driving a horse on the road at a natural gait of nine or ten miles an hour, I have frequently had occasion to observe that he was laboring with perspiration until I left him drink freely, when he ceased to sweat, and evidently traveled more freely. Don't be afraid to give your horses water; the danger is in making them abstain too long, in which case care is needed.—*Country Gentleman.*

Influence of Roads on Horses.—Dr. Holland, editor of the "Springfield *Republican*," traveling in Europe, writes to his journal a letter about horses and roads, in which he says: The point which I wish to impress upon my American readers is simply this: that the English horse, employed in the streets of a city, or on the roads in the country, does twice as much work as the American horse similarly employed in America. This is the patent, undeniable fact. No man can fail to see it who has his eyes about him. How does he do it? Why does he do it? These are the most important questions to an American. Is the English horse better than the American? Not at all. Is he overworked? I have seen no evidence that he is. I have seen but one lame horse in London. The simple explanation is, that the Englishman has invested in perfect and permanent roads what the American expends in perishable horses that require to be fed. We are using to-day, in the little town of Springfield, just twice as many horses as would be necessary to do its business, if the roads all over town were as good as Main Street is from Ferry to Central. We are supporting hundreds of horses to drag loads through holes than ought to be filled over and that should be hardened, through mud that ought not to be permitted to exist. We have the misery of bad roads, and are actually or practically called upon to pay a premium for them. It would be demonstrably cheaper to have good roads than poor ones. It is so here. A good road well built is easily kept in repair. A mile of good macadam is more easily supported than a poor horse.

Wise Sayings.—We have gathered a few wise sayings from excellent authority. They are worth reading, remembering and preserving.

Don't buy patent rights to sell again.

Buy a farm wagon before a fine carriage.

Don't become security for him who waits for the sheriff.

Don't starve your land; if you do you will grow lean.

Don't buy a piano for your daughter while your sons need a plow.

Don't leave to memory what should be written: it makes law suits.

Don't let your horses be seen standing much at the beer saloon; it dont look right.

Don't give the merchant chance to dun you. Prompt payment makes independent men.

Keep good fences, especially line fences: they promote good feelings between neighbors.

If you have a yoke of oxen don't be ashamed of them and give your note for a span of horses.

A decent, substantial clothing for your children, makes them think better of themselves, and keeps the doctor away.

When the labors of the day are past, let good books and newspapers invite the youngsters to the sitting room.

Our Boots and Shoes.—The *Scientific American* says: It is somewhat surprising that, with all our boasted improvement, we have not yet produced a proper covering for the foot. Barbarous people, if their climate admits, go with bare feet or wear sandals covering only the sole and a portion of the leg, while civilized humanity envelop their feet in a material almost impervious to air or moisture, and generally uncomfortably hard and rigid. The color and polish of our boots are directly calculated to attract the suns rays; and the connection patent leather, and the blacking on each, tends to harden and solidify it—this nice, closing the pores and making air tight cases for a portion of the body which exudes more perspiration than any other, and is subjected to greater strain.—Our boots in summer parboil our feet in a warm bath, and in winter freeze them in an icy envelope. It is doubtful if wet feet are, in themselves, very conducive to disease, some medical men to the contrary notwithstanding; but cramped confinement of the feet, in an icy cold envelope generated by perspiration and chilled by the external atmosphere, thus shutting the imprisoned feet almost airtight, is as unhealthy as it is uncomfortable. For hot weather there is hardly any shoe so agreeable as that introduced within the past three or four years, known as the army shoe, and extensively used by base-ball players. It is of a heavy canvass and unblacked leather. It is cool and remarkably easy to the foot.—The texture of the canvass allows the escape of the prespiration, and the color of the shoe does not attract the heat of the sun. It would seem that the plan of covering other portions of our bodies with material pervious to air might advantageously be extended to our feet. There is no natural reason why our feet should be so much less sensitive than our hands. They become "indurated and deprived of their natural activity by long, close confinement. The people of warm climates, who use their toes as we do our fingers, and the schoolboy, who picks up and throws pebbles with his feet, shows that the foot of the civilized adult in our climate is a much cramped member. A more flexible and pervious material for our boots and shoes might easily be born many of those terrible maladies which, in the form of corns and bunions, make our pilgrimage one of pain.

Planting Strawberries.—The *Journal of Horticulture* says that though many advocate setting strawberry plants in July or August, it is satisfied, after many years experience, that the spring is the best time of the whole year in which to do this work. The frequent and genial showers of that season are favorable to the growth of the plants, and they soon get hold so as to be able to withstand the heat of summer and the frosts of winter. When set in autumn, unless frequently watered, the plants often dry up and die. If set in the fall they are very likely to be thrown out and destroyed the following winter.

NEW FORWARDING AND COMMISSION HOUSE.

HAVING purchased the extensive Warehouse, Dock, &c., of Cope & Stevenson, the undersigned intend locating on the 1st of December next on Chester River, at the old stand on the corner of Washington and Railroad streets, and are now erecting a commodious and fire proof warehouse.

Also a regular line of Freight Cars will ply between our Warehouse every TUESDAY and FRIDAY, and accommodation trains will be run as occasion may require. By this arrangement we are prepared to convey Freight at all times to and from Baltimore. All business of this kind entrusted to us, will be promptly attended to. Our cars run to the Warehouse of Stevenson & Sons, 103 south Howard street, Baltimore. Being determined to pay good prices, sell cheap and deal fairly, we invite everybody to give us a call.

A Word to the Wise!

HIGHLY IMPORTANT TO FARMERS!

Renner's Chemical Fertilizer!

THE importance of a quick, active and durable Fertilizer, adapted to the soil of our county, is acknowledged by all Farmers. Having satisfied myself, after long study and careful experiment, that F. C. RENNER'S

Chemical Fertilizer

surpasses all others in adaptedness to all kinds of soil, I have purchased the right for Adams county, and am prepared to fill orders for it promptly and on reasonable terms. It is no humbug, for

HAS BEEN SUCCESSFULLY TRIED

by a number of our Farmers, and is admitted by all who have it to be the best in the market, and the cheapest. I am prepared to furnish this Fertilizer in any quantity, and will deliver

In any town or village in the County,

when ordered in not less quantity than a TON. I manufacture it for sale at $50 per ton without bags, or $55 in bags. This Fertilizer is composed of the best fertilizing chemicals that can be had. It has no oil of vitriol; it does not contain any ammonia, therefore I do not use it. Neither do I use lime nor ashes.

THE OBJECT OF THE CHEMICAL FERTILIZER

is to introduce a fertilizer that will last for a series of crops—not only for one. It contains sufficient ammoniac matter to mature the grain and make it ripen early, while the ammonia forces the growth. I expect to manufacture a large supply this winter for the spring crop, and therefore invite farmers and the public generally to give it a trial on all kinds of Grains and Vegetables.

CAUTION.—I hereby give notice that Farm Right hereafter sold unless signed by me, are infringements on my Right, and will be prosecuted and dealt with according to law, from which there is no appeal.

All orders will be promptly attended to by addressing

J. H. SHREMAN'S
REAPERS & MOWERS.

HAVING been agent for this machine last season, I at once offer it to the farmer this season. It is well known as having taken the premium at the Reindeer Hills Fair, also at the Gettysburg Spring Match over seven others which were considered splendid machines, and likewise at the Gettysburg Spring Match, it was conceded of not less or any one machine that will go to cutting satisfaction. I have followed practice of several other machines, and know that this one is

THE GREAT MACHINE OF THE SEASON.

Having tried one myself, I know exactly what it will do. I could refer you to scores of farmers who have purchased machines of me which they have owned and say this is the only machine they would use.

Extra sickles on hand, and repairing done here at my place. This is a great consideration. The machine can be repaired at home immediately, and with much less cost.

Another great saving in the BINDER which is at no need to this celebrated Reaper and Mower. It has been thoroughly tried, and given entire satisfaction—requiring no harvest hand except the driver. This binder can also be attached to the Reapers which have been sold, but cannot be attached to any other machine except Sherman's.

I will here refer to a few farmers, in different localities, who have bought and used these machines:

Michael Fiscel, Stephen Gettler,

Jacob Lenson,

with others, too numerous to mention.

This machine has a self-raking side delivery, and is warranted to do its work as above recommended.

Also on hand, SHREMAN'S SELF-DELIVERING HORSE RAKE, a first-rate article, which we will sell at the lowest possible price. Warranted to give satisfaction. Also the COLUMBIA RAKE always on hand.

Machines can be seen at my house, three miles south of Gettysburg, or at Mr. Conrad Snyder's Eagle Hotel.

A Word to the Wise!

HIGHLY IMPORTANT TO FARMERS!

Renner's Chemical Fertilizer!

THE importance of a quick, active and durable Fertilizer, adapted to the soil of our county, is acknowledged by all Farmers. Having satisfied myself, after long study and careful experiment, that F. C. RENNER'S

Chemical Fertilizer

surpasses all others in adaptedness to all kinds of soil, I have purchased the right for Adams county, and am prepared to fill orders for it promptly and on reasonable terms. It is no humbug, for

HAS BEEN SUCCESSFULLY TRIED

by a number of our Farmers, and is admitted by all who have it to be the best in the market, and the cheapest. I am prepared to furnish this Fertilizer in any quantity, and will deliver

In any town or village in the County,

when ordered in not less quantity than a TON. I manufacture it for sale at $50 per ton without bags, or $55 in bags. This Fertilizer is composed of the best fertilizing chemicals that can be had. It has no oil of vitriol; it does not contain any ammonia, therefore I do not use it. Neither do I use lime nor ashes.

THE OBJECT OF THE CHEMICAL FERTILIZER

is to introduce a fertilizer that will last for a series of crops—not only for one. It contains sufficient ammoniac matter to mature the grain and make it ripen early, while the ammonia forces the growth. I expect to manufacture a large supply this winter for the spring crop, and therefore invite farmers and the public generally to give it a trial on all kinds of Grains and Vegetables.

CAUTION.—I hereby give notice that Farm Right hereafter sold unless signed by me, are infringements on my Right, and will be prosecuted and dealt with according to law, from which there is no appeal.

All orders will be promptly attended to by addressing

GEORGE RENNER.

Coe's Cough.

COE'S COUGH BALSAM!

This long tried and popular Remedy is again called to the attention of the public. As often as the year rolls around, the proprietors annually make their bow to the people, and remind them that amongst the many things required for the health, non but and accurance of the family through the long and tedious months of winter, Coe's Cough Balsam should not be forgotten. For years it has been a household medicine—and as there are those to be the safety of their children, and all who suffer from any disease, first and last, cannot afford to be without it. In addition to the testimony in our favor so long in the market, we now furnish our mammoth family size bottles, which will in connection with the other size, be found at all Drug Stores.

IN CONSUMPTION,

Many a one whose sufferer has found relief and today feels that her life has been made easy and prolonged by the use of Coe's Cough Balsam.

SORENESS OF THE THROAT, CHEST AND LUNGS.

Do not delay procuring and immediately taking Coe's Cough Balsam, when troubled with any of the above named difficulties. They are all premonitory symptoms of Consumption, and if not arrested, will prove a later grave you away into the valley of shadows from which none ever return.

IN CONSUMPTION,

Many a one whose sufferer has found relief and today feels that her life has been made easy and prolonged by the use of Coe's Cough Balsam.

Jos Wible will supply all kinds with it, and at factory prices. Reasonable, lots, &c., can be had at short notice.

DYSPEPSIA.

Having tested and proved the virtues of

Coe's Dyspepsia Cure,

in my own family, I feel it a duty I owe to suffering humanity to recommend it to all who are afflicted with that terrible disease.

DAVID A. BUEHLER.

Mr. Wm. Wible, Gettysburg, Pa.:

Dear Sir—Please send me one dozen bottles of Coe's Cough Balsam. I have been selling it for a number of years, and have never had a bottle returned. It is the best Cough Medicine I have ever sold.

Yours truly,
